# Teamwork methodology and conflict resolution strategy

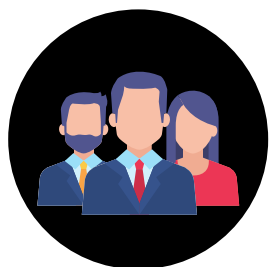

## Methodology

Agile scrum methodology

## Communication

Daily online meetings were held via “Discord” with all the members of the group present.

## Conflict resolution

Faced with each more critical obstacle, at the daily meeting we proceeded to resolve it.

# Product quality / Expected results

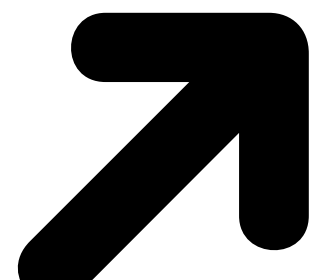

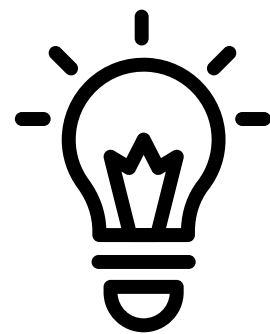

## Project current state

We are satisfied with the current state, and proud of the work already done.

---

## Project Growth

Since the project is an incremental process, we will improve and grow it.

# 'Turnkey' format for software delivery/sale

## DEMONSTRATION

For demonstration purposes, the system contemplates the possibility of being initialized (bootstrap) and after connecting the Database with the information, we would proceed to demonstrate it.
