

CLIENT PRESENTATION

LAPR4 – PROJETO INTEGRADOR 21/22

2DE – G1

1200720 – Manuela Leite

1201239 – Francisco Redol

1201382 – Pedro Rocha

1201386 – Rita Ariana Sobral

Meet Us!

**Manuela
Leite**

**Francisco
Redol**

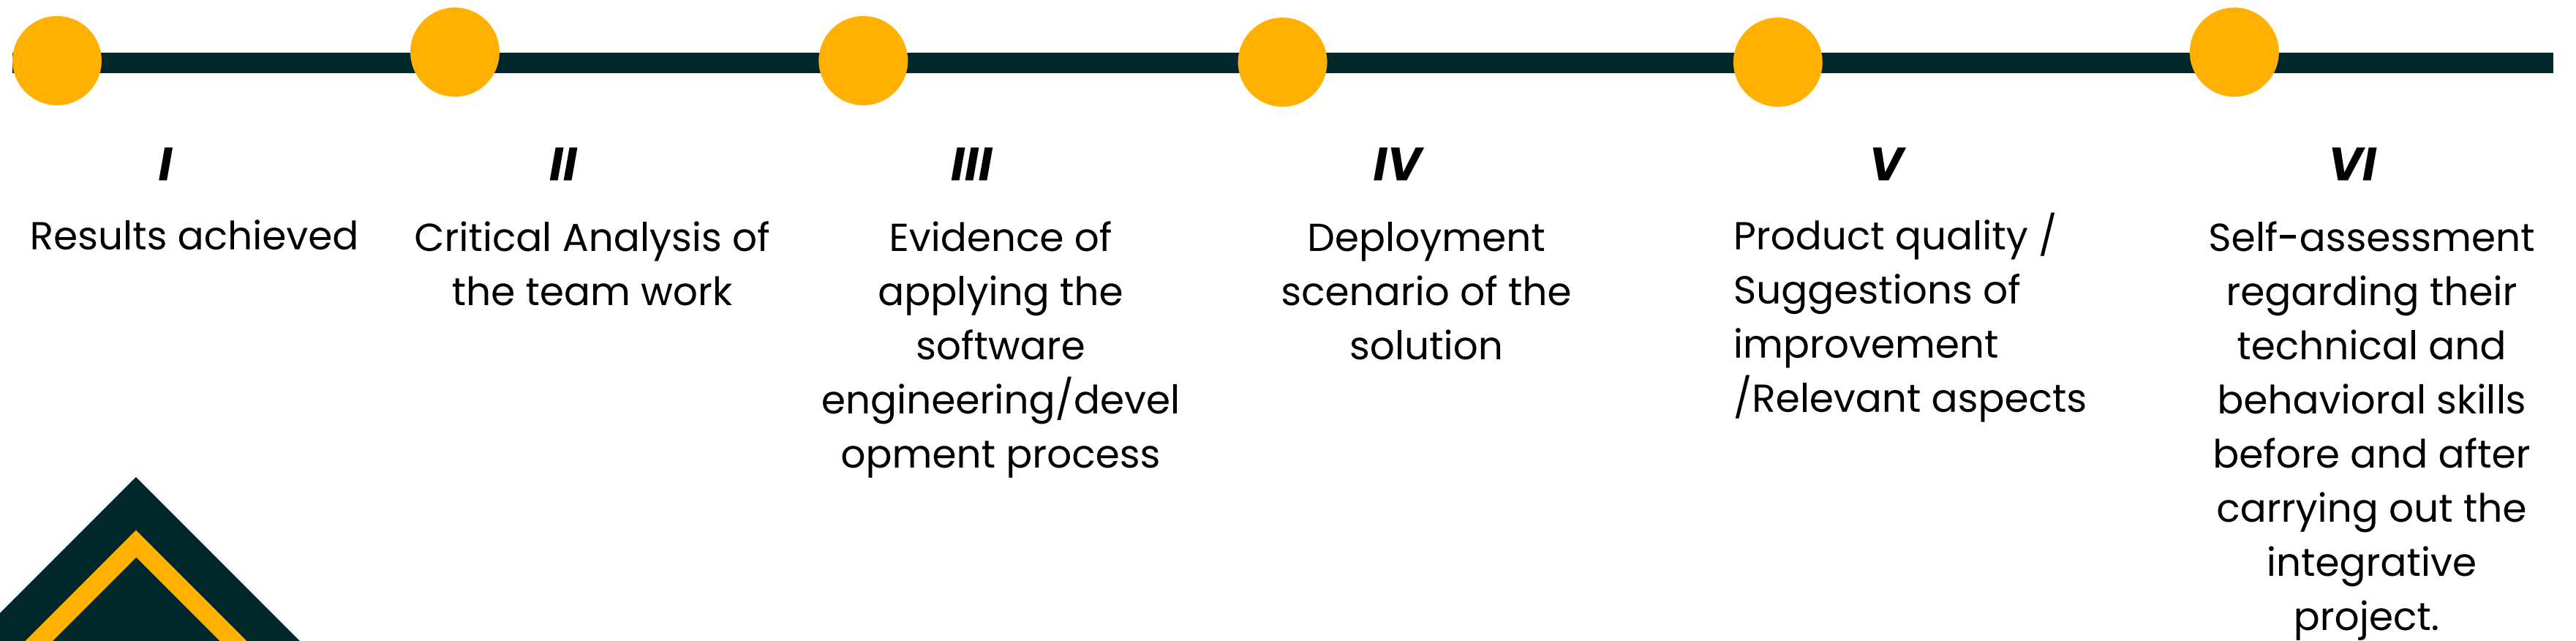

**Pedro
Rocha**

**Rita Ariana
Sobral**

Presentation Organization

Results achieved

All use cases implemented, functional and documented

Delivery of an efficient and user-friendly system

Critical analysis of results and teamwork

STRENGTHS

Good application of technical skills, balanced division of efforts, communication, regular meetings, conflict mediation, proactivity, search of solutions

OPPORTUNITIES

Learning and consolidation of new knowledge

WEAKNESSES

THREATS

Although several tests were developed, we could have developed more

Evidence of applying the software engineering/development process

Methodology

Agile scrum methodology

Communication

Daily online meetings were held via “Discord” with all the members of the group present.

Conflict resolution

Faced with each more critical obstacle, at the daily meeting we proceeded to resolve it.

Deployment scenario of the solution

Product quality / Suggestions of improvement / Relevant aspects

Project current state

We are satisfied with the current state, and proud of the work already done.

Project Growth

Since the project is an incremental process, we will improve and grow it.

**Self-assessment regarding their
technical and behavioural skills
before and after carrying out the
integrative project.**
